

**Form 1a: Informed Consent to Perform
MLH1/MSH2/MSH6/PMS2/EPCAM Somatic Tumor MMR
Sequencing and Deletion/Duplication Test**

The purpose of my DNA test/or my child's DNA test is to look for variant(s) known to be associated with Lynch Syndrome.

By signing below, I acknowledge that:

1. My participation or, as applicable, my child's participation in this DNA testing is voluntary. The decision to consent to, or to refuse the above testing is entirely mine.
2. This testing is done on small biological samples.
3. It is possible that the quantity or quality of sample submitted may be inadequate for testing or that a variation cannot be identified.
4. When tumor testing shows oncogenic variant(s) in any one or more of the following genes, *MLH1*, *MSH2*, *MSH6*, *PMS2* and *EPCAM*, the normal sample is analyzed for the same variant(s). If the variant is present in the normal sample, this patient may be at risk for Lynch Syndrome which is associated with an increased risk for certain cancer(s) compared to the general population. Consulting a doctor or genetic counsellor is recommended to learn the full meaning of the results and to learn if additional testing might be necessary.
5. Impact Genetics will only collect, use, and disclose your personal health information as permitted/ designated on the requisition/order form or required by applicable laws. For example, if necessary to obtain reimbursement of test fees, Impact Genetics, its agents and legal representatives, may disclose personal health information (including test results) for such purpose.
6. Impact Genetics is not a DNA banking facility and patient DNA samples may not be available for future testing.
7. Impact Genetics will return any unused tumor tissue to my treating physician or the pathology laboratory once testing is completed.
8. There is a chance that the test may reveal unexpected abnormalities that may be of medical value in the patient's care. Impact Genetics will inform the referring specialist designated on the requisition/order form.
9. Until the results of this test are reported, the patient and members of the patient's family should still undergo examinations as prescribed by the referring specialist.
10. I have read or have had read to me, the above information and I understand it. I have also read or had explained to me the specific disease or condition tested for, and the specific test(s) I am having, including the test descriptions, principles and limitations. I have had the opportunity to discuss the purposes and possible risks of this testing with my doctor or someone my doctor has designated.
